Professional Experience

Product Developer | Firsthub, Chennai

Aug 2022 - Present

- Led product development strategy and user experience flow planning, ensuring seamless interaction between frontend and backend systems.
- Designed, developed, and deployed multi-vendor eCommerce platforms featuring secure payment gateways, logistics APIs, and seller management dashboards.
- Developed and optimized REST APIs for seamless third-party integrations.
- Coordinated closely with design and business teams to balance technical execution with creative product vision.

Graphic Designer | Freelancer, Chennai

May 2019 - Aug 2022

- Designed and delivered a wide range of branding, marketing, and digital design projects for clients across various industries.
- Created logos, social media graphics, print materials, and promotional assets using Adobe Photoshop, Illustrator, and After Effects.
- Collaborated directly with clients to understand requirements, develop design concepts, and deliver visually engaging content that met brand goals.
